A PLACE WITH HISTORY

## Background & Backdrop

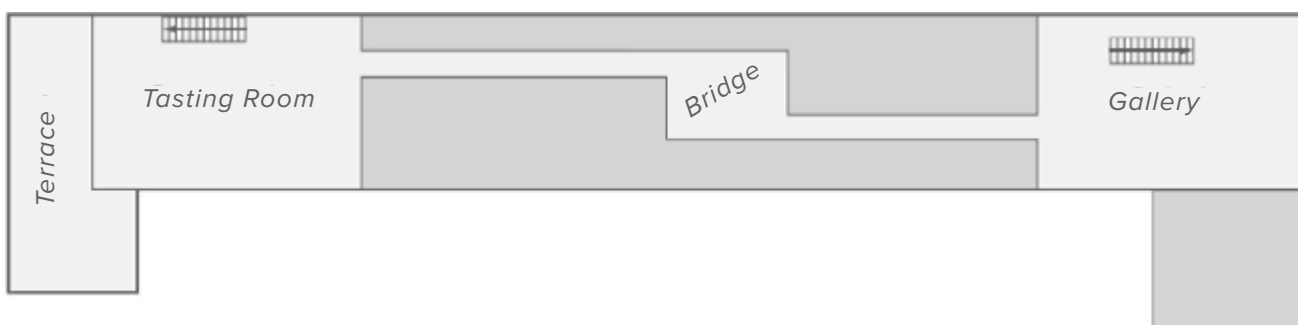

The so called „Schaflerhof“ was built in 1704-1714. Under the rule of the Esterházy princes of the nearby Deutschkreutz Castle, the building served as an estate and base for sheep farming until 1940. After decades of slumber, the Reisner-IGLER family acquired the farm in 2004 and put this jewel to a new use as a branch of the HANS IGLER winery. The years of 2005-2008 were followed by extensive revitalization measures, building conversions and the faithful reconstruction of the extraordinary roof structure.

EVENT LOCATION

## Tasting Rooms

With a clear and open view of the vastness of the gentle Ödenburg mountains and our ripening cellar, the tasting rooms on the upper floor of the Schaflerhof present themselves in an atmospheric ambience. The rooms offer space for up to 70 people. You can use the entire upper floor including the gallery, bridge and spacious terrace or just the tasting room.

UNIQUE AMBIENCE

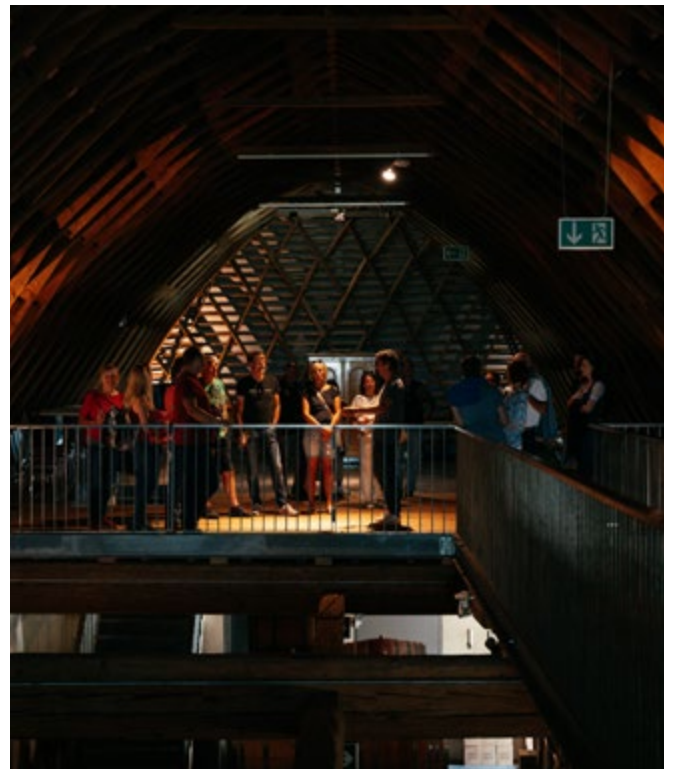

## Barrique Barrels & Ripening Cellar

At ground level, the wine matures here in 700 barrique barrels. From the gallery, a bridge spans the entire ripening cellar. From there, our guests enjoy an incomparable view: Above you, you can see the special roof structure with its historical beams, below you the frenzy of activity regarding the wine barrels.

*Your well-being and that of your guests is close to our hearts. Convince yourself by taking a short trip to visit us on site.*

*A vaulted cellar and a spacious terrace with views of the lowlands right up to the Schneeberg await your guests for breathtaking moments.*

*Our ample gardens are the perfect setting for outdoor wedding ceremonies, birthdays or receptions.*

United under one  
roof: our love  
of nature and  
constant striving for  
perfection. After all,  
the better is always  
the enemy of the  
good.
